Your Guide

Mark is a recently retired Conservation Officer and has been a long time passionate fly fisherman. He began tying flies and fishing with a fly rod in high school. He has fly fished for everything from bone fish in the Florida Keys to salmon in Alaska, but greatly enjoys introducing others to the world of fly fishing. Mark is the founder of Trout Bumming. He guides fly fishermen throughout the season to help financially support his own fly fishing addiction.

He has been married to his wife Mary for 30 years, who also enjoys chasing trout from their family home near Yellowstone National Park. Mark began fishing the Mountains around Teton and Yellowstone Parks in 1982 and fell in love with the areas good fishing, amazing scenic beauty and numerous wildlife viewing opportunities. Mark is a well known adventure photographer (Natural Resource Photography.com) and will photograph your trip and email you images of you and your fish. Come spend some time with Mark and learn to fly fish and maybe even catch the big one!

Wildlife

You have an opportunity to view elk, bighorn sheep, mule and white tail deer, bears, picas and so many other species of wildlife. You may choose to visit the nearby National Parks, Tetons and Yellowstone. Fee and park information here.

Grand Teton National Park: <http://www.nps.gov/grte/index.htm>

Fly fishing Instruction

Most of the people we take fly fishing have never tried it before. So included in your trip is basic fly fishing instruction. Like others before you, we will have you casting a fly in no time. Then we will head to the rivers or lakes!

Physical Conditioning

If you are in good physical condition we can hike to better fishing areas on all day trips. If you are not or have a disability we can take you to lakes and use a boat.

Fishing Requirements

Plan on purchasing your license after you arrive in Dubois at the fly shop.

Wyoming Game and Fish: <https://wgfd.wyo.gov/>

What is NOT Included

- Fishing License, National Park, museum entry fees
- Food & Lodging (except lunch on fishing trip days) or our packages include most meals.
- Gratuity

What to bring Recommendations

Below is a list of recommended items to bring with you for your adventure. It does not include any personal needed items.

Weather in the high mountain country can be unpredictable and temperatures can range from 90 degrees to 20 degree's in a 24 hr period even in mid summer. But they average low 80,s during the summer with no humidity.

If you own the following fly fishing equipment bring your own rod, reel waders, wading boots, flies, wading staff and other fly fishing equipment. If you don't bring the above they will be provided for you.

Below are some recommended items you may want to bring with you.

- Day pack to put all your stuff in or a fly fishing vest to hold the below
- Long sleeve shirt
- Bear spray
- Gloves
- Hat with a brim
- Personal items/medicines' etc
- Water bottle, we recommend Life straw Go filter bottle
- Mini flash light/clip on hat flashlight
- Camera
- Space blanket
- Rain jacket
- Sunglasses

- Knife
- Chap stick
- Sunscreen
- Insect repellent
- Matches or lighter in a zip lock bag
- Personal snacks
- Jacket for cool days
- Small hand cleaner
- Toilet paper in a zip lock bag
- Small basic first aid kit

Some of our clients bring small binoculars but a camera is a must. Again place them in a plastic zip lock bag. Consider leaving your cell phone behind as there will be no service for it anyway, unless you use it as your camera.
